

DYNARIAN (Mining)

English version / March 2021

DYNARIAN is a free open source project derived from Bitcoin, aiming to provide a long-term energy efficient, script-based cryptocurrency. Built on the foundation of Bitcoin, PPCoin, and NovaCoin, innovations like proof-of-stake and script will help further advance the field of cryptocurrencies.

DYNARIAN (Mining)

English version / March 2021

Microsoft Windows®

Mine blocks with your wallet and the following instructions.

- Download the Wallet for Windows®.
- Open File Explorer and go to your download directory.
- Extract the zip file dynarian-qt-windows.zip
- Open the notepad and paste the following.

```
rpcuser=<<
```

Click on the menu item "File"> "Save as ...".

The opened dialog box will appear, click "Save as type" and select the option "All files (*.*)".

Enter the following text after "File name": dynarian.conf

Save in the folder C:\Users\User\AppData\Roaming\DYNARIAN (this may vary depending on the version of Windows® you use)

Request on the WEB (www.dynarian.com COMMUNITY option)
